

Wheelchair access to University Centre, Lower Level as of May 2009

Go to the flagpole plaza and look towards The Chan Centre. You will see a glass elevator imbedded in a dark grey and glass structure.

Take this elevator down to Level 5, The Chan Centre. This is just one level down.

Go outside and then to the left and work your way through the Rose Garden.

The quickest path through the Rose Garden is to head towards the ocean and take the last path that goes left as it is a straight through path.

When you get through the Rose garden, look for the path slanting slightly down to the entrance of the University Centre, Lower Level. You will notice this is at the back of the University Centre.

At the University Centre, Lower Level, the door you come to first has a handicapped push button to open it.

Other option:

If you are inside the University Centre, Lower Level and go to the washrooms, you will find an elevator just behind the washrooms. This elevator will take you up to Sage Bistro and then there is a long corridor through the back of the restaurant to get out. The restaurant is only open 8 am to 3 pm Monday to Friday and you will only be able to get in and out during those hours.
